Pilot Program

ANPD opens Call for Contributions on Artificial Intelligence Regulatory Sandbox

Azevedo Sette
ADVOGADOS

The National Data Protection Authority (ANPD) is carrying out a **Call for Contributions to create a regulatory sandbox on Artificial Intelligence (AI) and personal data protection** matters in Brazil.

PURPOSE

To collect information and perspectives from different stakeholders for future regulation in AI and data protection.

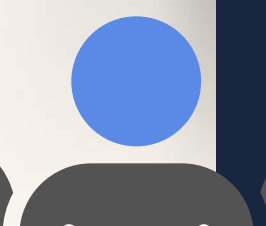

LEGAL GROUNDS

The Brazilian General Data Protection Act (LGPD) refers to the use of AI when it **allows data subjects to request a review of decisions made by automated processing that may have affected them.**

TECHNICAL STUDY

A Technical Study on the AI and data protection regulatory sandbox was launched as **a guide for future pilot projects and sandbox editions.**

The current pilot program **focuses on Artificial Intelligence.**

REGULATORY SANDBOX PHASES:

1. Defining objectives;
2. Identifying interested parties;
3. Defining scope, duration, funding and human resources;
4. Identifying risks and mitigation mechanisms;
5. Defining criteria for participation;
6. Preparing technical documents to start the sandbox.

STAGES

- Submission of proposals;
- Preparation of participants;
- Testing;
- Closure or exit.

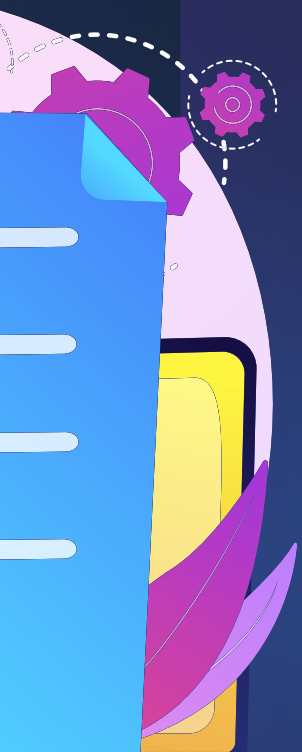

BILL 2,338/2023

It is important to remember that there is a Bill under analysis in the Senate on the use of Artificial Intelligence. Read more details about this Bill in a note released by the TMT team of Azevedo Sette, available at our website.

AGENDA:

The Participa + Brasil platform will receive contributions from Brazilian and foreign citizens, from the public and private sectors, **until November 1, 2023** for the Public Consultation on regulatory sandbox.
